

Forest Hills Branding Throughout the Years

The first known newsletter was issued in December 1998 and the logo was used through 1991.

The newsletters were saved digitally starting in 2007 with the launching of the first FHNA website (not as part of a third-party website).

Recently the older newsletters were discovered in the FHNA storage facility, scanned and posted to the FHNA website as part of The Forest Hills History Project. The newsletters span from 1988 to present day. No newsletters were found in 1994-1996 and 2004.

The logos demonstrate design changes and more importantly the different newsletter editors throughout the years. The Forest Hills newsletter has been the mainstay of communication.

In addition to Forest Hills Newsletters, neighborhood directories were published several times. The printed versions have since been replaced with the digital directory available by signing up at the [website](#)
